**RENTS.**—Daily and Sunday, including Magazine Section, 75 cents a month, or \$9.00 a year; Single copies, 5 cents. Delivery by mail, \$1.00 a year; by express, \$1.50 a year; by mail, \$1.00 a year; by express, \$1.50 a year.

**ADVERTISING.**—Daily and Sunday, including Magazine Section, 75 cents a month, or \$9.00 a year; Single copies, 5 cents. Delivery by mail, \$1.00 a year; by express, \$1.50 a year; by mail, \$1.00 a year; by express, \$1.50 a year.

**OFFICE:** Times Building First and Broadway.

**Entered at the Los Angeles Postoffice for transmission as mail matter of the second class.**

**HOW THE TIMES TREATS LABOR.**  
THE LOS ANGELES TIMES regularly pays to its skilled, reliable and acceptable workmen wages that average from \$3.75 to \$4.50 per day for time work, and from \$4 to \$5.50 per day for piece work. These rates are higher than are paid by any competing newspaper; and another advance has recently been agreed upon. The Times pays larger sums weekly, monthly and yearly for labor than any journal in all the Southwest. Its cash disbursements on this account between August, 1901, and the end of September, 1902, aggregated \$9,000,000; and its annual expenditures for labor of all classes, both skilled and unskilled, now average more than \$750,000 per year. There never has been any attempt, in any quarter, to deny these specific and telling facts, and the proprietors challenge such denial if made. Not for years has the Times had any trouble with its workmen, who are independent of unions, loyal to their employers and themselves, well satisfied and prosperous. The Times controls its own business in its own way, subject only to the laws of the land; and no interference with that control can be lawfully or justly made. The result of its fixed policy has proven highly beneficial to all concerned, and the judgment and correctness of its course have for years past received public approval in most marked and conspicuous ways, the circulation and advertising patronage of the paper steadily and largely outstripping that of all local rivals.

**THE TIMES-MIRROR COMPANY.**  
H. G. OTIS, President and General Manager.

Does an attempt whatever has ever been made in any quarter to refute, or even dispute, the accuracy of the foregoing authoritative statements, our detailed statements are copyrighted, and the public is amply warranted in giving no credence to contemporary hostile assaults upon the Times management in the matter of its relations to its workmen, or vice versa. Falsehood must yield to truth.

**CIRCULATION.**  
The average daily circulation of THE TIMES, Sundays included, for August, 1902, was 31,777 copies, being an average daily gain over August, 1901, of 4,978 copies.

The average net daily circulation (Sundays included,) of THE TIMES for the eight months from January 1, 1902, to August 31, 1902, inclusive, was 30,941 copies.

The average circulation of the SUNDAY TIMES (including the Magazine) for every Sunday during the eight months ending August 31, 1902, was 45,093 copies.

The average daily circulation by years since 1895, together with the increase from time to time, is shown above under the sub-head of "Circulation."

**BUSINESS.**  
The credits exchanged at the Los Angeles clearinghouse yesterday amounted to \$78,000, as compared with \$75,475 for the corresponding period of last year. The clearings for the month of September aggregated \$10,705,747.25, as against \$11,137,036.80 for September, 1901. September's increase this year over the clearings for August was \$55,935.10.

Something of a sensation was produced at New York by the report that the President would terminate the coal strike by legislative methods. The entire list of stocks shot upward, with coal in the lead, and over 1,000,000 shares were dealt in. Grain was fairly prominent at Chicago.

**AN APPEAL TO PASSION.**  
The San Francisco Chronicle has made the point that in the present campaign in this State the Democracy is following along the old, well-beaten route pursued by that party during the last two national campaigns, of appealing to the passions and prejudices of voters, instead of to their reason and common sense.

During two spirited campaigns William J. Bryan swung around the circle of the nation appealing to classes and prejudices. He made a specialty of the doctrine of hate. He taught nothing that meant for human uplift; for kindness as between man and man; for the amenities of life in this busy world of work. The man who is running for Governor in California this fall is following closely in the footsteps of the agile statesman from Nebraska and makes direct appeal to class prejudice in the hope of carrying favor with voters. He will fail, just as Bryan failed, for the American workmanman is too sensible and too keenly alive to his own interests to bite off his nose to please a man who boldly states that he wants to be elected Governor merely because he wants the office.

Mr. Lane may be a very lovely gentleman (and The Times dwells upon the point of Mr. Lane's loveliness of character, because his supporters make so much of it), but he is not showing it by going up and down the land making a class fight in order to attain a position of political prominence in the commonwealth. There is nothing lovely or lovable in inciting hatred; in agitating the prejudices of men; in setting class

less, and the residents are expected to accept it as street sprinkling. Complaints registered at the office of the Street Superintendent seldom result in a betterment of the service. In some cases there is improvement for a few days, after which there is a return to the old squalid methods. If, as Superintendent McGuire alleges, he has turned the thousands of complaints over to the sprinkling contractor—and there is, of course, no reason to question his word—it is up to the Council to take prompt and vigorous action. Mr. McGuire has done nothing more nor less than his duty in passing this question up to the Council, since the Council alone has power to put a stop to this abuse, by which the people are defrauded of what is justly their due. What is the Council going to do about it?

**THE PROTECTOR.**  
President James M. Lynch of the International Typographical Union, who is in San Francisco, announces that he is coming to Los Angeles to either effect a settlement with The Times or make a vigorous fight.

Lynch has arrived decidedly in this announcement. There is nothing for him to settle with The Times; and as for a vigorous fight, the union has exhausted all its vigor in that direction. Lynch must be coming to Los Angeles to have a picnic at the union's expense—and for nothing else.

For twelve years agitators of the Lynch type have been trying to break into The Times office, but have failed. The Times has employed a corps of industrious, competent and loyal workmen and has paid them higher wages than the union scale. They are well satisfied, and so is The Times. Its business has steadily increased and never grew so fast as during the past year. The Times and everybody about The Times establishment is happy. The unshappiness is all on the part of Lynch and trouble-makers like him, who can't break into The Times office.

Let Lynch fight. Everybody knows that such talk is the froth on the cheapest sort of mug. It is known to all that Lynch has no business of any kind to "settle" with this office, and that the "fight" is a tale that is told.

The taking-off of the distinguished French author, Emile Zola, removes from the arena of letters one of the most striking characters who ever wielded a facile pen. That his works were of the earth, earthy, does not detract from his mastery of style. But beyond his capacity as a writer, Mr. Zola was an eminently just and brave man, and as such he won the unqualified admiration of the world. His course in the Dreyfus matter brought him a better and braver city than the French name, and disaster to some of the members of that infamous committee. He was the author of "Le roman expérimental" in his defense of the accused officer who was so outrageously treated.

We believe that Mr. Zola's appeal to the passions of men will cost him far more votes than it will make for him. We believe that the man who works with his hands has just as much common sense, and as much good judgment, as any other man, and as many times more. Strong of faith in the sense and soundness of the average citizen of the commonwealth, the Republican party asks the suffrage of the voters of the State looking to a continuance of that matchless prosperity which has astonished the world, and which glorifies America in the hearts of all humanity.

**ENFORCE THE CONTRACT.**  
If Street Superintendent McGuire is to be commended for calling the attention of the Council to the lax manner in which the street-sprinkling contractor is executed. It is time for some decisive action to be taken in this matter. The abuse to which Mr. McGuire calls attention has been permitted to continue altogether too long. The Council has full power to stop this abuse, under the terms of the contract. It can deduct from the monthly bills of the street-sprinkling contractor such amounts as in its opinion have not been served, or the power is also reserved to the Council to annul the contract altogether. While the latter course would perhaps be more drastic than the circumstances demand, at the present time, it is clear that something should be done, and at once, to compel the carrying out in good faith of this important municipal contract.

The people pay, and pay well, to have the graded streets of the city properly sprinkled. They are entitled to receive full returns for their money, in the execution of the contract to the letter. The contract has not been properly executed for years past. Some of the streets are given altogether too much water; other streets are neglected in a most shameful manner. West Adams street, from Figueroa to Vermont avenue, is doused with water to such an extent that it is muddy most of the time. Other streets in the same section, and farther southwest, are sprinkled only once a day, or less frequently. It is a common sight to see a sprinkling cart on these streets, drawn by a span of mules driven through the center of the street at a brisk trot. A thin and narrow streak of dew is thus spread in the center of the street, while the space for ten or twenty feet on each side is left dry and dusty. There are miles of streets which are given this sort of treatment once a day, or even

less, and the residents are expected to accept it as street sprinkling. Complaints registered at the office of the Street Superintendent seldom result in a betterment of the service. In some cases there is improvement for a few days, after which there is a return to the old squalid methods. If, as Superintendent McGuire alleges, he has turned the thousands of complaints over to the sprinkling contractor—and there is, of course, no reason to question his word—it is up to the Council to take prompt and vigorous action. Mr. McGuire has done nothing more nor less than his duty in passing this question up to the Council, since the Council alone has power to put a stop to this abuse, by which the people are defrauded of what is justly their due. What is the Council going to do about it?

**LETTERS TO THE TIMES.**  
The Times freely publishes the views of correspondents, without holding them responsible for the opinions expressed. The space of 20 words, on the average, is sufficient for the expression of an idea.

**Babies and Unborn.**  
LOS ANGELES, Sept. 30.—(To the Editor of The Times): The denunciation in this morning's Times of "one Tresecker" by what seems to me to be less than one George W. Parsons, reminds me of a story.

The landlady of a handsome new block of modern flats advertised that no children would be admitted; no matter how respectable or wealthy their misbegotten parents might be. The flats were rented at once to newly-married couples, and in a few days a year's time the block contained an embryo kindergarten. Let's wrestle with politics, morals, suburban and otherwise, each other's private affairs—anything we can drag into our "religious" life—but let nature alone. She is an impossible opponent, and long, very long, after our little victory, we find that our little thoughts which we took pains to deliver so properly, are forgotten, nature will still exist. The baby is a permanent fixture, and if "one Tresecker" baby were mine, he would not have left the building wherein the revered gentleman was talking—ever at the risk of the "head" under the necessity of "head" users.

**JEAN PIERCE.**

## CHOOSING OF WATER BOARD.

### Shall It Be Elected or Be Appointed?

### Movement for Retaining Present Commission.

### Councilman Powers Proposes a Postal Card Vote on Question.

Shall the Water Commissioners be elected or appointed? Is public sentiment in favor of their reelection? These are the questions which the Council is now considering. The Council is now considering the question of the Water Commissioners. The Council is now considering the question of the Water Commissioners. The Council is now considering the question of the Water Commissioners.

**CHARGES GIVEN TO METHODIST PASTORS.**  
**APPOINTMENTS MADE BY BISHOP JOYCE YESTERDAY.**  
Annual Methodist Conference Dispersed in Pomona After a Long Struggle in Arranging the List of Ministerial Appointments.

The annual conference of Methodist ministers, which has been in session in Pomona, dispersed yesterday morning. The list of appointments is as follows:

**LOS ANGELES DISTRICT.**  
G. F. Bovard, presiding elder, No. 214 West Ninth street, Los Angeles; Alhambra, H. W. Waterbury; Burbank and Lancaster, William Pittenger; Compton, T. E. Robinson; Downey, supplied by A. M. Thompson; Gardena, supplied by James E. Ferris; Florence, Harold K. Vann; Gardena, T. B. Uren; Hynes, J. D. Monroe; Long Beach, A. W. Adkinson.

**THE ORDINANCE.**  
For several weeks the question of amending the present ordinance has been under discussion. Councilmen have been divided on the question of whether they should eliminate the elective provision. The section of the ordinance under discussion reads as follows:

"The domestic waterworks system of the city of Los Angeles shall be under the control of seven commissioners, who shall constitute the Board of Water Commissioners. The members of said board shall be elected at the general municipal election to be held on the 1st day of January, 1903. Thereafter their successors shall be elected at each general municipal election, and the term of office of each commissioner shall be two years. No person shall be eligible for election as such commissioner unless he is at least five years next preceding his election an elector of Los Angeles. The salary of each commissioner shall be \$100 per month, but shall be allowed \$10 per diem for actual attendance at all regular meetings."

# WITH THE RANGER AT THE ISTHUS.

INTERESTING LETTERS FROM A  
BOY AT PANAMA.

One of those selected to constitute a Landing Party—Britishers and Americans have a cutter race—Americans win.

The eighteen-year-old son of Horace Stevens of this city is an apprentice of the first class on board the Ranger, now at Panama, and the letters he has written to his father are quite interesting, especially at this particular time, as all the press dispatches from that place are subjected to the censorship of the Colombian authorities, while the correspondence from the Ranger is taken to Colon by one of the men on board the vessel and transmitted by steamer to New York, from whence it reaches its proper destination. It will thus be seen that the only reliable information must necessarily come through Uncle Sam.

The young man's reference to the British gunboat Phaeton in the course of his letter will undoubtedly be news to a great many, as it has generally been supposed the Ranger was the only man-of-war in port when the English vessel was unquestionably captured with the American in case of serious trouble.

Under date of August 26 he writes as follows: "Your most welcome letter came to hand a few days ago, and I should like very much to be able to see you all, but just at present Uncle Sam thinks I look better down here with a weather eye on these dagoes."

"Matters are fast approaching a crisis, and forty of us from the Ranger have been selected to go ashore for the purpose of protecting American interests which the rebels undertake to bombard or besiege the city of Panama."

"Of this landing party, eight of us have been picked out to manipulate the Col's automatic gun, and I am No. 2 of the gun's crew, and therefore am not obliged to carry any other weapon than a service revolver."

"We expect to be called upon at any hour, and in fact could be ready at a moment's notice, as we have been under constant drill ever since the approach of trouble."

"Panama and Colon are now surrounded by rebels, and they may be attacked at any time. The poorer classes in Panama are going out in large numbers and joining the ranks of the rebels, as they cannot get much to eat in the city."

"It is a difficult matter to engage in letter writing, on account of the extreme heat. It is quite sultry during the day time, but the nights are usually pleasant. Rains are of frequent occurrence, and there is much sickness ashore, but as we are not permitted to go ashore just at present (unless something should turn up) we do not mind the situation so much, as all on board the Ranger are in good health."

"H.M.S. Phaeton, a vessel of the gunboat type, arrived in port from Victoria about three weeks ago, and immediately her cutter race the other day, defeating the Britishers by two minutes and a half, and in honor of the event they gave our officers and crew a grand motor, and about seventy-five of us went over to it, remaining until night."

"As we shovelt off we gave them our cheers, and they all lined up to forecastle and sang 'Auld Lang Syne' until we got out of hearing. We are going to give them a good entertainment this coming Thursday, and as our crew are well entertained about the entertainment, we look forward to the chance of showing the Britishers what Yankee talent is made of."

The Ranger is described as a gunboat, 120 tons displacement, and is built of length between perpendiculars, 177 feet; beam, 32 feet; draft, 12 feet; speed, 19 knots. She carries 100 tons of coal, and has a crew of 100 men, and 2 Colt automatic guns in her main battery, besides two 6-inch rapid-fire guns in her secondary battery. She has a crew of six months' stores to go to the Pacific coast, and had only been in San Diego a few days when she received word from the United States when she received word to proceed south and relieve the Philadelphia.

The orders of the Navy Department created a great deal of dissatisfaction among the crew, and there were whole-sale desertions in consequence, as the men did not relish the idea of returning to the tropics for another six months' stay.

"On August 29 the officers and crew of the Ranger gave an entertainment to the Britishers at 11 P.M. The Britishers arrived on board the vessel at 5 P.M., and were escorted to the ship by our crew."

The banquet was a great success, all the dainties obtainable at Panama being plentiful supply.

The entertainment commenced at 8 P.M., and lasted until 11 P.M., and was enjoyed to such an extent that our guests pulled away the Ranger was loudly cheered by the visitors, and farewell songs were indulged in by all."

STOCKHOLDERS OF LOS ANGELES BREWING  
...Officers and Directors  
...Entertainment Considered.

The stockholders of the Los Angeles Brewing Company held their annual meeting yesterday afternoon at the company's office, electing directors for the coming year. The board chosen were: Max Kuehnrich, Theodore Nau, and Robert W. S. Wright and Frank H. Hutchins. After the election the stockholders ratified all the acts of the corporation, and after the meeting the directors passed resolutions thanking the management for the efficient services rendered during the past twelve months. Almost the entire body of stockholders either attended in person or sent proxies.

After adjournment a meeting of the directors was called and held for the purpose of electing officers for the coming year. The officers elected were: President, Max Kuehnrich; Vice-President, Theodore Nau; Secretary, F. H. Hutchins.

In order to meet the continual growth of the business, the management has taken into consideration the need of enlarging the brewery, and will put the corporation into a position to largely increase the output, which has been steadily growing since the founding of the business.

RAILROAD NOTES.  
O. A. Parkyn, assistant general freight and passenger agent of the Southern Pacific, left yesterday for a few days in San Francisco.

J. T. Whalen, general Western agent of the Mexican Central, has come north. His headquarters are in St. Louis.

The big special train which will arrive in Los Angeles tomorrow morning is expected to bring a large number of passengers from the coast.

long ways ahead of what you'd  
think possible to produce at the  
price. Come see 'em now. Buy  
when you please.

Under date of August 26 he writes as follows: "Your most welcome letter came to hand a few days ago, and I should like very much to be able to see you all, but just at present Uncle Sam thinks I look better down here with a weather eye on these dagoes."

"Matters are fast approaching a crisis, and forty of us from the Ranger have been selected to go ashore for the purpose of protecting American interests which the rebels undertake to bombard or besiege the city of Panama."

"Of this landing party, eight of us have been picked out to manipulate the Col's automatic gun, and I am No. 2 of the gun's crew, and therefore am not obliged to carry any other weapon than a service revolver."

"We expect to be called upon at any hour, and in fact could be ready at a moment's notice, as we have been under constant drill ever since the approach of trouble."

"Panama and Colon are now surrounded by rebels, and they may be attacked at any time. The poorer classes in Panama are going out in large numbers and joining the ranks of the rebels, as they cannot get much to eat in the city."

"It is a difficult matter to engage in letter writing, on account of the extreme heat. It is quite sultry during the day time, but the nights are usually pleasant. Rains are of frequent occurrence, and there is much sickness ashore, but as we are not permitted to go ashore just at present (unless something should turn up) we do not mind the situation so much, as all on board the Ranger are in good health."

"H.M.S. Phaeton, a vessel of the gunboat type, arrived in port from Victoria about three weeks ago, and immediately her cutter race the other day, defeating the Britishers by two minutes and a half, and in honor of the event they gave our officers and crew a grand motor, and about seventy-five of us went over to it, remaining until night."

"As we shovelt off we gave them our cheers, and they all lined up to forecastle and sang 'Auld Lang Syne' until we got out of hearing. We are going to give them a good entertainment this coming Thursday, and as our crew are well entertained about the entertainment, we look forward to the chance of showing the Britishers what Yankee talent is made of."

The Ranger is described as a gunboat, 120 tons displacement, and is built of length between perpendiculars, 177 feet; beam, 32 feet; draft, 12 feet; speed, 19 knots. She carries 100 tons of coal, and has a crew of 100 men, and 2 Colt automatic guns in her main battery, besides two 6-inch rapid-fire guns in her secondary battery. She has a crew of six months' stores to go to the Pacific coast, and had only been in San Diego a few days when she received word from the United States when she received word to proceed south and relieve the Philadelphia.

The orders of the Navy Department created a great deal of dissatisfaction among the crew, and there were whole-sale desertions in consequence, as the men did not relish the idea of returning to the tropics for another six months' stay.

"On August 29 the officers and crew of the Ranger gave an entertainment to the Britishers at 11 P.M. The Britishers arrived on board the vessel at 5 P.M., and were escorted to the ship by our crew."

The banquet was a great success, all the dainties obtainable at Panama being plentiful supply.

The entertainment commenced at 8 P.M., and lasted until 11 P.M., and was enjoyed to such an extent that our guests pulled away the Ranger was loudly cheered by the visitors, and farewell songs were indulged in by all."

STOCKHOLDERS OF LOS ANGELES BREWING  
...Officers and Directors  
...Entertainment Considered.

The stockholders of the Los Angeles Brewing Company held their annual meeting yesterday afternoon at the company's office, electing directors for the coming year. The board chosen were: Max Kuehnrich, Theodore Nau, and Robert W. S. Wright and Frank H. Hutchins. After the election the stockholders ratified all the acts of the corporation, and after the meeting the directors passed resolutions thanking the management for the efficient services rendered during the past twelve months. Almost the entire body of stockholders either attended in person or sent proxies.

After adjournment a meeting of the directors was called and held for the purpose of electing officers for the coming year. The officers elected were: President, Max Kuehnrich; Vice-President, Theodore Nau; Secretary, F. H. Hutchins.

In order to meet the continual growth of the business, the management has taken into consideration the need of enlarging the brewery, and will put the corporation into a position to largely increase the output, which has been steadily growing since the founding of the business.

RAILROAD NOTES.  
O. A. Parkyn, assistant general freight and passenger agent of the Southern Pacific, left yesterday for a few days in San Francisco.

J. T. Whalen, general Western agent of the Mexican Central, has come north. His headquarters are in St. Louis.

The big special train which will arrive in Los Angeles tomorrow morning is expected to bring a large number of passengers from the coast.

# J. W. ROBINSON CO.

BOSTON DRY GOODS STORE.  
239 South Broadway, Opp. City Hall, Los Angeles.

You will find special prices in the Corset Department for the next few days—special prices made for the express purpose of holding your continued interest in our corset selling.

# Corset Sale

The special sale begins Wednesday morning; there are several features of the sale. We will tell you first about a line of corsets that we have decided to discontinue, not because of any short coming in the corset but simply because we find that the various lines of ROYAL WORCESTER CORSETS, in more than 200 styles, give us such a comprehensive stock that it is no longer necessary to carry the La Vida make. Therefore the entire line of La Vida corsets will be closed out.

# At 1/2 Price

There is a wide variety of styles and shapes and a complete range of materials. Somewhere in the assortment you are almost sure to find a corset which will suit you and the price has been made in every case exactly half what we sold them for before deciding to discontinue the line. This means that we have priced

\$3.00 La Vida Corsets at \$1.50  
\$5.00 La Vida Corsets at \$2.50  
\$7.50 La Vida Corsets at \$3.75  
\$8.50 La Vida Corsets at \$4.25

# Special Royal Worcesters

We shall also sell, beginning Wednesday morning, a limited lot of 100 dozen of a special make of Royal Worcester corsets at 45c. They would be excellent value in the regular way at 75c or \$1.00, but to center your attention on the complete line of Royal Worcester corsets they are offered at the special sale price 45c.

# H. JEVNE

GOOD BREAD.  
All the good that can be put in a loaf of bread is in Jevne's Home-made Bread. We commenced making Home-made Bread because we knew how to make it the genuine Home-made Bread. Spread some of Jevne's good butter on a slice of this Home-made Bread—you'll say it's better than any cake. Well baked loaves large and delicious—50 and 10c.

Smoke Jevne's Pine Cigars.  
208-210 S. Spring St.—Wilcox Building.

THE CITY IN BRIEF.

NEWS AND BUSINESS.

**Chutes Amateur Night.**  
Fun of the hilarious sort is promised at the Chutes Theater tonight. It will be amateur night, and a double bill is scheduled, the addition being a novel pie-eating contest, which is always the best of fun-provokers. Several promising novices will appear in the vaudeville features. The Chutes will give a promenade concert in the park.

**Alaskan Workers Return.**  
Robert and Carrie Samma, who have been engaged in missionary work five years at Kotzebue, Alaska, under the auspices of the Southern California Society of Friends, have returned to Los Angeles. They will spend some time at the Bible Training School for Christian Workers, East First and Bailey streets, Boyle Heights.

**Burglar in a Church.**  
The First Congregational Church was visited by a burglar during Monday night, who did a little damage and secured but a few cents for his trouble. The thief broke open the missionary box and took the contents. He also entered the vestry and took the safe on by prying off the lock, but found nothing portable of value. The matter was reported to the police yesterday by O. S. Lowman.

**Deserter Arrested.**  
Gustave Witt, alias Rader, a deserter from the United States Army at the Presidio, San Francisco, was arrested in a pitiable plight at the Plaza yesterday morning. Witt had been on the platform of a car on his way from San Francisco, and broke his shoulder. He had received no medical treatment since the injury, and was taken to the Receiving Hospital, where he will be detained pending the arrival of an officer from the north.

**Interesting Heirloom.**  
Mrs. M. L. Robinson, of No. 1210 South Hill street, has come into possession of a very valuable relic in the way of a shawl, hand woven in 1771 by Mrs. Anna Scott, mother of the late Gen. Winfield Scott. The shawl, now owned by Mrs. Robinson, was woven when her maker was about 19 years of age, has crossed the Atlantic, gone down into Mexico, and was for many years kept by Mrs. Scott's celebrated son Winfield as a memento of his mother.

**New Federal Jury.**  
A new federal jury was impaneled yesterday in the United States court, and proceeded to the consideration of the business in waiting. The jury consists of the following named: Amos H. Austin, Charles Henry Bessent, L. N. Davenport, Harry Stotterbeck, E. L. Chidland, Henry de Garmo, C. W. Mills, Albert Hodley, G. W. Walker, A. B. Cartwright, Isaac B. Newton, John A. Henderson, Gilbert T. Day, Fred Abbott, John Charters, Thomas Lloyd, G. W. Robins, R. Heflinger, D. T. Althouse, Julius B. Cobb.

**Drugs Clerks Organize.**  
The retail drug clerks of Los Angeles met and formed a social and business association yesterday evening. Frank Zerr of the Tanner Company was elected chairman. The new movement will bring in all of the clerks of the city, and is intended to promote the mutual welfare of employees and employers, and to keep a strict account of all registered men at work here, which will tend to much more rigid enforcement of the State pharmacy law. The permanent organization has not been fully effected, but the organizers disclaim any tendency toward the formation of a "labor union."

**Franciscan Fair.**  
The first fair ever attempted by the Franciscan fathers in Los Angeles will be held during the week commencing November 23, in the basement of the new St. Joseph's church, corner of Twelfth and Los Angeles streets. This fair will be held for the purpose of raising funds to complete the building, which will be one of the finest church edifices on the coast. There will be sixteen booths, at which all the parishes in the city will be represented. Dinner and supper are to be served every day during the fair by prominent society ladies, and there will be concerts each evening.

**Weather This Month.**  
For a period of twenty-five years the normal temperature in Los Angeles during October has been 64 deg., as shown by data compiled from the Bureau records by the local forecast official. The warmest month was in 1890, average 68 deg.; coldest, 1886, average 60 deg.; highest temperature, 102 deg., October 2, 1885; lowest, 40 deg., October 22, 1882. The average precipitation, rain and melted snow, is .74 of an inch; greatest monthly precipitation was 4.88 inches, in 1889; least, none in 1891; greatest precipitation in any twenty-four consecutive hours, 1.62 inches, October 21, 1888. The average number of clear days is 16; partly cloudy, 12; cloudy, 3; prevailing winds, west; highest velocity of wind, 34 miles, from west, October 7, 1887.

**REVIEW.**  
I announce to the ladies that I have arranged with "Crofts," the Fifth Avenue hatter, for ladies' tailored hats, to represent them in Southern California. "Crofts" hats have a style all their own. We carry only one of a kind, which assures an exclusive style. Spier, milliner, 121 S. Spring st., sole agent for Crofts' tailored hats.

Valuable collection of pictures. Secure the story of the great disaster of modern times by sending 10 cent to The Times for the first part of "The Disaster," by Martinique, St. Martinique, St. West Indies," and other parts, to follow.

Dr. F. R. Cunningham has opened new dental office in rooms 208-210 Front Block, corner Broadway and Second streets, directly opposite his old location.

Another shipment of McFadden physical-culture books and exercises just received by the Southern California News Co., general agents, 641 S. Broadway.

Physical culture and education, Kumer's, 332 South Grand. Ladies' and children's classes, October 6 and 7. Night class for men, October 1.

Crown, bridge and plate work equally by few and surpassed by none. 175 North Spring. Open day and night.

The D'Orlean Cle toilet preparations are dainty, refreshing, effective. 406 S. Broadway.

LOUISIANA STATESMAN COMES TO SEE US.

SENATOR MURPHY R. FOSTER OF LOUISIANA HERE.

Says Louisiana Stands With California on the Reciprocity Question—Never Saw so Intense Business Activity as in Los Angeles.

United States Senator Murphy R. Foster of Louisiana arrived in the city from San Francisco yesterday afternoon and is registered at the Westminster. He is accompanied by his wife, two daughters and brother, Dr. D. N. Foster. Senator Foster is much impressed with California, and speaks in glowing terms of the State and its vast resources.

"I am only here on a pleasure trip," he said last night, "and as I am not acquainted with the politics of California should prefer not to deal with the subject. However, there is one thing you might say, and that is the people of Louisiana are closely allied with Californians on the reciprocity question. We believe that both the best and the worst of our States are infatuated with California, and reciprocity would be adopted if it would not prove ruinous to both industries."

"I don't believe I can tell you much about that. It is something concerning which no one seems to have positive opinions." Senator Foster is one of the political leaders in the South, and although a comparatively young man yet he has been spoken of as a Presidential candidate on the Democratic ticket in the next campaign. He is the avowed champion of the Louisiana Democracy, having first gained distinction as a party leader when the governor of that State was threatened by the power of the Louisiana State Lottery Company. He served two terms as Governor, and at the expiration of his second term, two years ago, was unanimously elected to the United States Senate.

The Senator appreciates the wonders of California, for he says: "I do not believe I have ever seen so much activity in business before. The country certainly must be one of the ordinary. My visit has been a pleasure to me, and I shall always think kindly of California after my departure." Today Senator Foster and party will go to Catalina, there to remain several days, after which they will leave for Louisiana. Senator Foster says he would like to remain in Southern California several weeks longer, but owing to pressing business in his home State he must return at once.

HORSE BREAKER INJURED.

Francis Animal Becoming Fight-ened Falls on His Rider With What May Be Fatal Results. While riding on Kearney street yesterday afternoon, Fernandez Anderson, a young horse breaker, received injuries from the efforts of which he may die. Anderson's mount was only a half-broken animal, and when it was frightened by a passing wagon it shied and fell. Anderson fell underneath, and the horse rolled over him. The young man was taken to the Receiving Hospital and examined. He was found to be bruised severely, but his injuries were not considered dangerous. He was permitted to leave with a friend. Only a short distance was covered, however, before he was seen. Something more serious than bruises had resulted from the fall. A carriage driver, who was driving past, saw the accident, where a physician found he had sustained severe internal injuries, from which he may not recover.

MARRIAGE LICENSES.

Harvey J. Shouster, aged 46, native of Vermont; and Almida Herbert, aged 48, native of Missouri; residents of Los Angeles. Frank E. Tyler, aged 21, a native of Ohio, and Alice I. Remnants Today Jacoby Bros. 331-333-335 South Broadway. Remnants Today

Today, Two Weeks' Accumulation of Remnants.

All New Goods, Prices Cut in Half. On account of our opening last week in our dry goods department, we thought it inadvisable to conduct our usual Wednesday sale of remnants, therefore today we put on sale two weeks' accumulation, which is the largest lot of remnants we have yet offered. Fully half of them consist of Fall goods, nearly every kind of fabric is included. You'll find them spread on counters for your easy choosing. Prices one-half what you would pay in the piece. Sale commences at 9 a. m. today, sharp.

**\$7.50 Walking Skirt \$5.00**  
This is an actual \$7.50 skirt which will be sold at a reduction of \$2.50 for today only. Comes in all wool cloth in handsome light or dark gray, in brown, castor, blue, or in plain black. Handsomely trimmed with tucks and corded around the darts; strictly tailored made. Fit guaranteed.

**Wool Shirt Waists 95c. Values Up to \$3.00.**  
For today only, we have arranged a special sale of handsome wool shirt waists in the latest fall styles. Come in French flannel in plain and fancy effects. There is something so pretty and effective about them you will find it hard to resist even at their regular prices. Your pick of the lot today at 95c.

**Ladies' Belts 9c. Values Up to 25c.**  
A special Wednesday sale of pretty belts in leather or in satin—black or white. Come with assorted buckles; attractive and strong. Your pick of the lot, 9c.

**20c Men's Hdkts. 12c.**  
Men's splendid Irish linen handkerchiefs or japonet handkerchiefs with initials, in our regular 30c quality; special for today only, at 12c each.

**Skirt Binding 2c.**  
Today you may buy nice black velvet skirt binding at 2c per yard. It is a kind that resists wear and is recommended by many of the best dressmakers.

**15c Ladies' Hdkts. 9c.**  
These are pure Irish linen, neatly hemstitched. Come in a soft finish in a dainty size. Regular 15c grade, today only 9c.

**\$1.25 Fall Kid Gloves 95c.**  
The genuine Royal Pipe and Over Seam gloves in the latest fall importations at 95c today only. Come in all shades and sizes, perfect in fit; a quality that gives the utmost wear. It's your chance to buy a \$1.25 glove for 95c.

**\$1.00 Zaza Cloth 62c.**  
This comes 53 inches wide in very stylish mixtures. It's conceded to be the most popular \$1.00 dress goods in the market. Jacoby Bros.' price, 62c, today only.

**12c Art Denim 9c.**  
This comes a full yard wide in handsome figures, stripes, and solid colors. It is worth 12c and 15c. Your choice today only, at 9c.

**15c Curtain Swiss 8c.**  
This comes 50 inches wide in white with polka dots, stripes, and figures. In all stores it brings 15c; today only, 8c.

**50c Men's President Suspenders 39c.**  
In the magazine you'll find the President suspenders advertised at 50c, which is the standard price throughout the United States. Unquestionably, we believe that these suspenders are the best 50c value on the market. They have features found in no other make. Jacoby Bros. will sell them out at 39c.

Why

**Functional Weakness.**  
Functional weakness is a disease of the nervous system, and is the result of overwork, or of the use of stimulants, or of the use of narcotics, or of the use of alcohol, or of the use of tobacco, or of the use of opium, or of the use of morphine, or of the use of cocaine, or of the use of strychnine, or of the use of arsenic, or of the use of mercury, or of the use of lead, or of the use of iron, or of the use of copper, or of the use of zinc, or of the use of silver, or of the use of gold, or of the use of platinum, or of the use of palladium, or of the use of rhodium, or of the use of iridium, or of the use of osmium, or of the use of selenium, or of the use of tellurium, or of the use of antimony, or of the use of arsenic, or of the use of mercury, or of the use of lead, or of the use of iron, or of the use of copper, or of the use of zinc, or of the use of silver, or of the use of gold, or of the use of platinum, or of the use of palladium, or of the use of rhodium, or of the use of iridium, or of the use of osmium, or of the use of selenium, or of the use of tellurium, or of the use of antimony, or of the use of arsenic, or of the use of mercury, or of the use of lead, or of the use of iron, or of the use of copper, or of the use of zinc, or of the use of silver, or of the use of gold, or of the use of platinum, or of the use of palladium, or of the use of rhodium, or of the use of iridium, or of the use of osmium, or of the use of selenium, or of the use of tellurium, or of the use of antimony, or of the use of arsenic, or of the use of mercury, or of the use of lead, or of the use of iron, or of the use of copper, or of the use of zinc, or of the use of silver, or of the use of gold, or of the use of platinum, or of the use of palladium, or of the use of rhodium, or of the use of iridium, or of the use of osmium, or of the use of selenium, or of the use of tellurium, or of the use of antimony, or of the use of arsenic, or of the use of mercury, or of the use of lead, or of the use of iron, or of the use of copper, or of the use of zinc, or of the use of silver, or of the use of gold, or of the use of platinum, or of the use of palladium, or of the use of rhodium, or of the use of iridium, or of the use of osmium, or of the use of selenium, or of the use of tellurium, or of the use of antimony, or of the use of arsenic, or of the use of mercury, or of the use of lead, or of the use of iron, or of the use of copper, or of the use of zinc, or of the use of silver, or of the use of gold, or of the use of platinum, or of the use of palladium, or of the use of rhodium, or of the use of iridium, or of the use of osmium, or of the use of selenium, or of the use of tellurium, or of the use of antimony, or of the use of arsenic, or of the use of mercury, or of the use of lead, or of the use of iron, or of the use of copper, or of the use of zinc, or of the use of silver, or of the use of gold, or of the use of platinum, or of the use of palladium, or of the use of rhodium, or of the use of iridium, or of the use of osmium, or of the use of selenium, or of the use of tellurium, or of the use of antimony, or of the use of arsenic, or of the use of mercury, or of the use of lead, or of the use of iron, or of the use of copper, or of the use of zinc, or of the use of silver, or of the use of gold, or of the use of platinum, or of the use of palladium, or of the use of rhodium, or of the use of iridium, or of the use of osmium, or of the use of selenium, or of the use of tellurium, or of the use of antimony, or of the use of arsenic, or of the use of mercury, or of the use of lead, or of the use of iron, or of the use of copper, or of the use of zinc, or of the use of silver, or of the use of gold, or of the use of platinum, or of the use of palladium, or of the use of rhodium, or of the use of iridium, or of the use of osmium, or of the use of selenium, or of the use of tellurium, or of the use of antimony, or of the use of arsenic, or of the use of mercury, or of the use of lead, or of the use of iron, or of the use of copper, or of the use of zinc, or of the use of silver, or of the use of gold, or of the use of platinum, or of the use of palladium, or of the use of rhodium, or of the use of iridium, or of the use of osmium, or of the use of selenium, or of the use of tellurium, or of the use of antimony, or of the use of arsenic, or of the use of mercury, or of the use of lead, or of the use of iron, or of the use of copper, or of the use of zinc, or of the use of silver, or of the use of Second and Spring Sts. Phone Main 561.

**Why My Cures ARE PERMANENT.**

My practice presents a peculiar feature that I believe isn't found in any other physician's practice. The peculiarity is this: A case that I could not cure permanently would show no improvement whatever under my treatment. Odd as this fact may appear, there is a good and logical reason for it. I never treat symptoms. Symptoms may easily be caused to vanish and much improvement will be apparent, but it is the condition back of the symptoms that must be remedied before there can be a cure. Having gained a full understanding of every symptom that is ever presented, my treatment is always so directed as to correct these causes and do nothing else. Therefore, these cures are permanent. I never make a mistake in error in diagnosis and mistake the cause, no results whatever would be shown. Having cured so many hundreds of cases of the same disease, I have no excuse for making errors, and am able to treat with absolute accuracy in every instance, completely eradicating the disturbing condition, and through this action removing every symptom forever.

My practice is the largest because I invariably fulfill my promises.

**MEN'S DISEASES ONLY**

**Weakness, Varicocele.**

Functional weaknesses, commonly termed "weakness," are a direct result of inflammation, enlargement for excessive muscularity of the prostate gland, or outflow by early disposition, or resulting from some improperly treated contracted disorder. These conditions cannot possibly be removed by internal medicine, and any tonic system of treatment that is a waste of money. The only way to cure is by the use of my method. I have cured in hundreds of cases, and in a single week with my one of the best of treatment is had. I employ neither medicine nor surgery. I treat by local methods exclusively, and my success in curing these cases is proven by the fact that my patients are able to lead a normal life, and are free from all the troubles that attend these diseases. My method affords the only reliable means of a complete and radical cure.

**Stricture.**

My treatment for stricture is entirely new, and is accomplished without cutting or dissection. All growths and obstructions in the passage are dissolved, the inflammation removed, and all irritation or congestion removed.

My colored chart affords an interesting study in male anatomy and men's diseases. Will be sent free upon application.

## "CORNEY" IN THE DUMPS.

Barber Statesman in Line for Defeat.

All Elements Against His Election.

Second Ward Council Fight. Registration Returns Nearly All In.

"Corney" Benton is in the dumps.

His Senatorial bark is making no progress against the baffling winds of popular protest that are blowing in the Thirty-eighth Senatorial District.

The honorary barber is a good sailor in a "push" convention, when railroad and brewery lobbyists are on hand to pilot him, but his sea legs leave him when he is compelled to steer his craft in the face of a political gale such as is sweeping over the district that he carved out for himself while serving as a member of the last Legislature.

"Corney" is sore in mind over the outlook.

His "push" and "pull" Republicans alike refuse to support him, and to add to his woes the Democrats have nominated LeCompte Davis, who is making an active canvass, and whose friends claim he will carry every ward in the district.

In the absence of an independent Republican candidate, many influential Democrats say they will vote for the Democratic nominee, and the Democrats say they will vote for the Republican nominee.

An indication of the bitter feeling against Benton among his former associates was had yesterday, when a prominent "push" politician was seen passing out Davis cards, appealing strongly for support of the Democratic candidate.

In the rank and file of the "push" there is equal bitterness against the barber-statesman.

"The boys" are down on "Corney" because he doesn't "buy." He never "bought" good, they say.

One of them related his promise yesterday to a Times reporter in the following words:

"What kind of chumps does 'Corney' think we are? We stood by him in the convention when Wally Benton was a cinch on the nomination. There was a bunch of eight or ten of us who were in line for him, and he didn't make a thing for it. But what did he do? He bought drinks for two, and never so much as asked us to have a cigar. That's the kind of chump he has been making ever since. He doesn't stand by those who stood by him, and he won't stand by him now."

A Democrat who was active in the Republican convention, and who had been a member of the party, said yesterday that Benton could not hope for further support from Democrats. He has served as a candidate of their own, and they feel certain of electing the representative of their own party.

With wholesale defections of Republicans and the united opposition of Democrats, "Corney" is in a situation which he had not anticipated. He had expected the Democrats to nominate a weak candidate, which event he counted on hundreds of Democratic votes. These, with the Republicans, would make an error in diagnosis and mistake the cause, no results whatever would be shown. Having cured so many hundreds of cases of the same disease, I have no excuse for making errors, and am able to treat with absolute accuracy in every instance, completely eradicating the disturbing condition, and through this action removing every symptom forever.

My practice is the largest because I invariably fulfill my promises.

## MUTINOUS WESLEYANS.

African Methodists Rebel at Pastor.

Rev. Donohoo's Return not Welcomed.

Best Interests of the Church Demand Another Man, They Declare.

Mutiny has broken out in Wesley Chapel (African Methodist) over the return of Rev. F. L. Donohoo to the charge at Sixth street and Maple avenue.

Seventy-five members of the church met at the chapel last evening and resolved that they would not accept the pastor, for the reason that his continued pastorate "is not for the best interests of the church."

Rebellion against Rev. Donohoo has existed for two years, and it is said that this is the third protest that has been sent to the annual conference, requesting that his pastorate be brought to a close. There was a split in the church two years ago, it is said, because of trouble over Mr. Donohoo, and several members went over to another church. There were matters of alleged gold discoveries, and the members of the church were divided.

Mr. McClellan, chairman of the Board of Trustees, conferred with other members of the board and last night's meeting was the result.

Mr. McClellan was chosen chairman of the meeting, and Miss Scott was secretary.

For three hours the seventy-five attendants, who represent one-fourth of the membership, discussed the action of the conference in returning the pastor for the third time in the face of protests.

After a deal of discussion, it was decided to have developed no friendship for Mr. Donohoo, a resolution was drafted by a committee consisting of Henry Rusty, chairman, J. A. Jackson, Mrs. Mary J. Sellers and Mrs. Katie A. Hill.

Their report, which was adopted with dissent, is as follows:

No opposition exists to the members of Wesley Chapel, in mass meeting assembled, do not accept the pastor just indicated by the bishop and his colleagues. We further resolved: That it is not for the best interests of the church, and that we do not believe in the appointment of Rev. Donohoo to the pastorate.

Some of those who attended last night's meeting say they believe their resolutions will be acted on by the bishop to their satisfaction. They say they have no one in view for the pulpit, and that they are willing either to accept any other supply named or to choose their own pastor.

It is less than a year since the membership of Wesley Chapel was all torn up by a schism. The members of the association left the chapel because of dissatisfaction with Pastor Donohoo and the depot is the only Central avenue. They took with them

the secretary and treasurer of the association, likewise the funds, about \$4000, but the books were retained by the membership of the chapel, who also held onto the association badges.

After a long wrangle, in which threats were made to carry the matter into court, the majority of the association triumphed and the members of the Central-avenue mission now control the association's affairs.

The latest difficulty in Wesley Chapel is attributed to this trouble, and further to the fact that the mission is drawing heavily on the membership of the original institution.

George Klingburg, a local mining expert, returned to Los Angeles yesterday from an extended trip through the central portion of Alaska, where he went a few months ago to examine properties in the Copper River district, which is a little over two hundred miles interior.

"It's a great country, but not yet opened up for development," said Mr. Klingburg in speaking of his trip yesterday. "It is a mine day's trip by steamer from Seattle to Valdez, and the present meager transportation from the coast inland makes the trip a hard one."

"I went to examine the Bonanza, which is a large group of copper claims in the heart of the district, and found it to be a wonderful property, in one respect, there being one of the largest bodies of chalcocite ore on the surface of the earth. The average of many samples, from the immense ore body, several hundred feet in length, gave the ore a value of 70 per cent. copper. There are also large bodies of low-grade ore, with stringers of chalcocite, that will average 20 per cent. copper."

"There are numerous other properties in the district that show good values, but all are of too low grade for working under present facilities. Even the immense deposit of all its richness is practically worthless without railroads, which the district now lacks."

"The distance inland is over two hundred miles by the proposed railroads, which may be built if the property is taken up by northern capitalists now interested. Such is the character of the country that it has been estimated that a railroad would cost close to \$400,000 a mile. This seems excessive when one takes into consideration that two bridges would have to be built, one half mile long and the other three-quarters of a mile in length, some reason for the cost is explained. These bridges would be built over the Copper River, then up the river to the forks of the Chitino River and Nana River, and from thence a distance of twenty miles to the mine."

"The Nana River district is at present becoming widely known on account of alleged gold discoveries. Telegrams have appeared in Seattle and other papers since September 24, telling of these discoveries. When the Bonanza mine has been developed, it will be a great thing for the country, and while I don't say they have not been made, still I would say that the mine is not yet developed. From what we could learn of the district, it is not yet developed, but so little has been done in the way of development that it is at this time impossible to tell what the placers of the district are. There is certainly no cause for the mine to be developed, and it is impossible for any one to go to the mine, and then they would be compelled to depend upon dogs and sleds for transportation. On account of the heavy snowfall no work could be done before May, which would make the season a very short one."

"There is no game to speak of; there are a few ducks and scattering bands of sheep, but nothing that a prospector could depend upon if supplies should fail. Provisions are high, very high. The cost of grain for animals on the government trail forty miles beyond Valdez is 25 cents a pound, and hay is \$2.50 a bale."

"On the Indian trail along Copper River traders when selling to Indians charge \$1 a cup for sugar, tea and flour. To prospectors they make liberal allowance. Under these circumstances, it is not the Mecca for prospectors at this time."

"The glaciers seen inland are simply wonderful. They are from eighteen to twenty miles in length, between six and eight miles in width, and from 100 to 500 feet deep. We passed within twenty miles of Mt. Wrangell, 17,500 feet elevation, from which an immense amount of snow and ice is constantly escaping."

Mr. Klingburg was accompanied by H. A. Cohn, San Francisco, for whom an examination was made. The Bonanza has an elevation of 6000 feet, and is acquired by San Francisco capitalists will be opened up on a large scale. A deal is now pending.

**HELEN RAE'S RICH POCKETS.**  
Private advice from White Oaks, N. M., tell of a rich strike made recently in the Helen Rae mine. About \$20,000 was taken from one small pocket, followed by another find of \$15,000.

The Helen Rae property is situated about three miles from Nogal, in Lincoln county, N. M., and is owned by the American Mining Company, which recently purchased this mine. The Helen Rae has been idle for several years, but has the record of having produced a nugget worth \$600 about fifteen years ago.

This property is one of the oldest camps in the district, and there are now many promising properties in the section.

**DESERT MINING DEAL.**  
Chester Garner and Axel Nordstrom of Corona have secured a quarter interest in the Minnesota mine, No. 5, and a third interest in the Minnesota mine, No. 4, corner and south of the mine.

**Salina Cruz.** As shown in the accompanying photograph, is scarcely more than a trading post. Dispatches yesterday from the city of Mexico told of its partial destruction by a tidal wave inundating it, as the result of an earthquake shock. The damage to the wharves at the terminus of the Tehuantepec Railroad, which are located at Salina Cruz, amounted to half a million dollars. The settlement is half a day's ride by rail from the City of Mexico, going southeast. The population is about 250.

**Los Angeles Man's Snap of Razed Mexican Town.**

This photograph was taken by Robert J. Smith of Los Angeles while on a commercial trip to Salina Cruz last year. It was snapped from the depot platform, and the depot is the only building in the town which is not shown. Earthquakes are frequent in that section, and the houses are built only of adobe, as they are likely to be shaken down at any time. The dispatches do not mention any loss of life from the recent disaster. It is the new railroad, an American enterprise, which has suffered.

There is certainly no cause for the mine to be developed, and it is impossible for any one to go to the mine, and then they would be compelled to depend upon dogs and sleds for transportation. On account of the heavy snowfall no work could be done before May, which would make the season a very short one."

"There is no game to speak of; there are a few ducks and scattering bands of sheep, but nothing that a prospector could depend upon if supplies should fail. Provisions are high, very high. The cost of grain for animals on the government trail forty miles beyond Valdez is 25 cents a pound, and hay is \$2.50 a bale."

"On the Indian trail along Copper River traders when selling to Indians charge \$1 a cup for sugar, tea and flour. To prospectors they make liberal allowance. Under these circumstances, it is not the Mecca for prospectors at this time."

"The glaciers seen inland are simply wonderful. They are from eighteen to twenty miles in length, between six and eight miles in width, and from 100 to 500 feet deep. We passed within twenty miles of Mt. Wrangell, 17,500 feet elevation, from which an immense amount of snow and ice is constantly escaping."

Mr. Klingburg was accompanied by H. A. Cohn, San Francisco, for whom an examination was made. The Bonanza has an elevation of 6000 feet, and is acquired by San Francisco capitalists will be opened up on a large scale. A deal is now pending.

**HELEN RAE'S RICH POCKETS.**  
Private advice from White Oaks, N. M., tell of a rich strike made recently in the Helen Rae mine. About \$20,000 was taken from one small pocket, followed by another find of \$15,000.

The Helen Rae property is situated about three miles from Nogal, in Lincoln county, N. M., and is owned by the American Mining Company, which recently purchased this mine. The Helen Rae has been idle for several years, but has the record of having produced a nugget worth \$600 about fifteen years ago.

This property is one of the oldest camps in the district, and there are now many promising properties in the section.

**DESERT MINING DEAL.**  
Chester Garner and Axel Nordstrom of Corona have secured a quarter interest in the Minnesota mine, No. 5, and a third interest in the Minnesota mine, No. 4, corner and south of the mine.

**Salina Cruz.** As shown in the accompanying photograph, is scarcely more than a trading post. Dispatches yesterday from the city of Mexico told of its partial destruction by a tidal wave inundating it, as the result of an earthquake shock. The damage to the wharves at the terminus of the Tehuantepec Railroad, which are located at Salina Cruz, amounted to half a million dollars. The settlement is half a day's ride by rail from the City of Mexico, going southeast. The population is about 250.

**Los Angeles Man's Snap of Razed Mexican Town.**

This photograph was taken by Robert J. Smith of Los Angeles while on a commercial trip to Salina Cruz last year. It was snapped from the depot platform, and the depot is the only building in the town which is not shown. Earthquakes are frequent in that section, and the houses are built only of adobe, as they are likely to be shaken down at any time. The dispatches do not mention any loss of life from the recent disaster. It is the new railroad, an American enterprise, which has suffered.

## MUTINOUS WESLEYANS.

African Methodists Rebel at Pastor.

Rev. Donohoo's Return not Welcomed.

Best Interests of the Church Demand Another Man, They Declare.

Mutiny has broken out in Wesley Chapel (African Methodist) over the return of Rev. F. L. Donohoo to the charge at Sixth street and Maple avenue.

Seventy-five members of the church met at the chapel last evening and resolved that they would not accept the pastor, for the reason that his continued pastorate "is not for the best interests of the church."

Rebellion against Rev. Donohoo has existed for two years, and it is said that this is the third protest that has been sent to the annual conference, requesting that his pastorate be brought to a close. There was a split in the church two years ago, it is said, because of trouble over Mr. Donohoo, and several members went over to another church. There were matters of alleged gold discoveries, and the members of the church were divided.

Mr. McClellan, chairman of the Board of Trustees, conferred with other members of the board and last night's meeting was the result.

Mr. McClellan was chosen chairman of the meeting, and Miss Scott was secretary.

For three hours the seventy-five attendants, who represent one-fourth of the membership, discussed the action of the conference in returning the pastor for the third time in the face of protests.

After a deal of discussion, it was decided to have developed no friendship for Mr. Donohoo, a resolution was drafted by a committee consisting of Henry Rusty, chairman, J. A. Jackson, Mrs. Mary J. Sellers and Mrs. Katie A. Hill.

Their report, which was adopted with dissent, is as follows:

No opposition exists to the members of Wesley Chapel, in mass meeting assembled, do not accept the pastor just indicated by the bishop and his colleagues. We further resolved: That it is not for the best interests of the church, and that we do not believe in the appointment of Rev. Donohoo to the pastorate.

Some of those who attended last night's meeting say they believe their resolutions will be acted on by the bishop to their satisfaction. They say they have no one in view for the pulpit, and that they are willing either to accept any other supply named or to choose their own pastor.

It is less than a year since the membership of Wesley Chapel was all torn up by a schism. The members of the association left the chapel because of dissatisfaction with Pastor Donohoo and the depot is the only Central avenue. They took with them

the secretary and treasurer of the association, likewise the funds, about \$4000, but

**\$1.25 Kid Gloves at per Pair, 89c.**  
As another good value to make our opening sale of interest to you, we place on sale for all day Wednesday an assortment of ladies' 2-clasp Kid Gloves in black and colors and in all sizes. These have embroidered backs, gusseted fingers and are \$1.25 values priced at per pair..... **89c**

**Fall Opening and 21st Anniversary Sale.**

Gigantic commercial enterprises are bound to create public attention. If they are along the right lines they have no cause to fear the light of day. For just twenty-one years the greatest factor in the retail business of Los Angeles has been the "Hamburger" firm. Every obstacle has been surmounted because its efforts were honest and the public has always been with it. Males and mothers, boys and men of mature years now trade at Hamburger's because their parents did so years ago. And, during all the changes of commercial life the same fair treatment has always characterized our store methods. Nearly every innovation of merit in treating with the Los Angeles public have been inaugurated by us.

In opening displays we have introduced many novel ideas, which later have been and now are copied by other stores. We were the first to present gifts at our openings, but as only one in a hundred ever gets a prize it creates discontent, so we have abandoned all such possibilities from our openings and prefer to attract you with displays of the best of manufactured products, and at the same time price some line of merchandise in each department so low that it is a to-be-remembered bargain, and in the securing of which all may share.

**50c Scotch Brusseline Rugs at Each, 25c.**

As an exceptional trade winner from our fourth floor for our opening sale we offer a handsome assortment of imported Scotch Brusseline Rugs Wednesday morning from 9 to 11 only at One Half Price. These are all double faced, are in good range of colors and patterns, have neat borders all around to match center, are fringed at both ends; are actual 50c values offered at choice..... **25c**

**Ladies' 50c Vests at Each, 39c.**

Useful, practical things appeal to you as much as the novelties, and the saving of nearly one-fourth on a standard article, is something you don't want to miss. For Wednesday all day we offer ladies' high neck long sleeve vests in white, gray or Peeler. They have silk finished neck and front. They are an extra good 50c value regularly. Monday leader at per garment..... **39c**

**Opening Sale Stylish Wool Waistings.**  
The popularity of shirt waistings increases with each recurring season and it is simply a shifting from light filmy textiles to those of heavy weight. The new fall waistings are exceptionally handsome in pattern and colorings and there are many novel weaves shown for the first time this year. We wish to direct your attention to three superior values which we are satisfied can not be found elsewhere in Los Angeles.

**\$1.00 Fancy Wool Waistings.**—An assortment of about 50 different shades of pink, light blue, red, brown, navy blue, Nile green, tan, old rose, reseda and myrtle. The weaves are Prunella, Serge, Nunsvelling, and damask with cords, stripes and lace stripe effects; widths 27 to 33 inches. Can not be matched anywhere under \$1.00. Opening sale price per yard..... **49c**

**27-inch Wool Waistings.**—An unexcelled assortment in all the new light and dark shades of pink, blue, red, green, old rose, gray, tan, brown; also black and white. The weaves are Granito, Serge and Sedan. Prunella cloth weaves with fancy lace and cord stripes, Roman stripes; also fancy Corduroy stripes with sidebands for collar and cuffs. They are 27 inches wide and an exceptional value at per yard..... **75c**

**Imported Wool Waistings.**—A selected assortment of foreign weaves in the new two-toned effects in wide and narrow stripe patterns; dainty shades of pink, blue, red, gray; also black and cream. Some of these are in tucked effect with heavy cords woven on side; also plain ticks and are in Granito and Henrietta weaves; widths 27 to 37 inches and they are a combination of silk and wool. Priced at per yard..... **85c**

**Finer Imported Wool Waistings.**—An assortment of 100 pieces to select from. There is an excellent range of colorings and two-toned effects in the silk and cord stripes, fancy Persian stripes, tucked with Persian effect. They are in Granito and Henrietta weaves, are made of imported wool yarn and widths range 24 to 37 inches. They are also shown in the new black and white combinations and cream. Absolutely the best value ever shown. Priced at per yard..... **\$1.00**

**Opening Sale Fall Silks.**  
For whatever purpose you may desire silks, we are satisfied that nowhere else can you find such an elaborate display in color and texture as we are showing for this great event. While the prices are low, they are not inferior in quality and the one reason we can afford to make low prices is that we give no discounts to any one, therefore save our customers from 10 to 15 per cent. over what the same quality sells for elsewhere.

**19-inch Black Brocade Satins.**—An assortment of 25 pieces of these desirable textiles for waists, skirts and gowns. They are a rich, lustrous black; soft crisp quality, will not split. Patterns are large and small figures, scrolls and vine effects. They are strictly pure silk and value which sells at many places at \$1.00. Made a leader for our Opening Sale, at per yard..... **69c**

**\$1.00 Black Imported Moire Velours.**—500 yards only, which is not a large lot and will not last long considering the superior quality. While they are largely in demand for waists and skirts, they are decidedly popular for Monte Carlo coats. They are a lustrous black in Antique effect, a firm close weave, are 20 inches wide and an excellent \$1 value. Opening Sale price, per yard..... **69c**

**Black Fancy Moire Antiques.**—At present the most popular silk for coffee jackets and Monte Carlo coats as well as skirts. They are in rich antique effect with polka dots, large and small wave patterns and allover designs. They are a lustrous black, bright finished yet a soft crisp quality free from dressing, full 21 inches wide and can not be matched anywhere under \$2.00. Opening Sale price, per yard..... **\$1.50**

**\$1.50 and \$2.00 Fancy Silks.**—Just 3000 yards in the combined lot including printed warp Louisenes, Taffetas, fancy Persian cords, lace stripes and Persian designs with fancy cord stripes. They are in the most popular of fall colorings for street and evening wear in two-toned effects, width range 19 to 21 inches and they are actual \$1.50 and \$2.00 values priced at per yard..... **95c**

**New Fancy Moire Velours.**—An assortment of more than 75 pieces in the most desirable of street and evening shades of pink, blue, green, red, turquoise, old rose, cream and black. Patterns are fancy and satin stripes, large wave Antique effect. They will not muss easily, are very durable, are 20 inches wide and would be good values at \$1.25. Opening Sale price, a yard..... **\$1.00**

**Opening Sale Linen Napkins.**  
**\$4.50 Irish Linen Napkins at per Dozen \$2.45.**  
As a leader for our opening and anniversary sale we offer a lot of three-quarter size pure Irish linen dining napkins; handsome patterns; satin finish; sold over our counters regularly at \$4.50. For this sale per dozen..... **\$2.45**

Blended Napkins—good quality, good quality, per dozen.....	\$1.19
Blended Napkins—fine soft quality, hand-made, per dozen.....	\$2.25
Pure Linen Napkins—full bleached, good quality, per dozen.....	\$1.25
Irish and German Linen Napkins—full bleached, good quality, per dozen.....	\$1.50
10-inch Blended Napkins—good quality, per dozen.....	\$1.69
Heavy Linen Napkins—half bleached, good quality, per dozen.....	\$1.75
Pure Linen Napkins—full bleached, good quality, per dozen.....	\$3.95
Irish Linen Napkins—full size, extra heavy, per dozen.....	\$4.50

**Opening Sale Cut Glass.**  
An elaborate display of these fine table fixings is shown this week, possibly a larger assortment than at any store this side of Chicago. We know to a certainty that our prices are absolutely the lowest.

**\$5.50 Cut Glass Bowl at \$3.95.**  
We continue our special offering for opening and anniversary sale. Every item—extra heavy cut glass and an actual \$5.50 value. With a limit one to a customer, at each..... **\$3.95**

Cut glass oil bottle with cut stopper.....	\$1.19
10-inch cut glass tumbler.....	\$1.08
Cut glass medium sugar and creamer per pair.....	\$1.08

8 inch prism cut glass.....	\$5.00
\$15.00 prism cut glass wine decanter.....	\$12.40
8 inch cut glass jelly nappy worth \$1.75, at.....	\$1.49

**Opening Sale Carpets and Tapestries.**  
The fall season is here which means house cleaning to every thrifty wife and the brightening up of the interior to give cheerful aspect during the coming rainy season and weather when you can not be so much out of doors. A new rug here and there, possibly a carpet for some one room or a new drape in some favorite nook will do much to give the wanted appearance.

**Henrietta Art Squares.**—extra heavy quality; copies of expensive imported rugs; all in fine line of colors and choice patterns; some in medallion; others allover designs. Prices range as follows:

6x9 feet art squares at \$2.25.....	\$2.25
7x9 feet art squares at \$2.95.....	\$2.95
9x9 feet art squares at \$4.89.....	\$4.89

**25c China Matting.**—extra heavy; perfectly seamless; come in large and small checked patterns; all with corded edges; and are perfectly reversible. Opening sale price a yard..... **19c**

**\$2.50 Imported Tapestry.**—fine quality French weave silk Tapestry; decidedly handsome for curtains, draperies or furniture cover; a line of four choice colors to select from. Choice per yard..... **98c**

**\$3.00 Couch Covers.**—fine Oriental Tapestry couch covers; extra heavy; reversible patterns; finished with heavy tassels fringe all round; and are 50 inches wide and 8 yards long. Opening sale price, each..... **\$1.75**

**72-inch \$1.50 Table Damask at per Yard 95c.**  
For the third day of our opening and anniversary sale we again direct your attention to the superior quality 72-inch satin finished, full bleached table damask that we made a leader for this sale. It is an actual \$1.50 value priced at per yard..... **95c**

**Opening Sale Black Dress Goods.**  
There is a richness and elegance about the superior weaves of new fall black textiles that surpasses all previous showings. Our dress goods department is situated under a large light well which gives perfect daylight for examining both color and texture. Among the most popular of the season's weaves are to be found the following:

**\$2.00 Black Figured Mohair Novelty per Yard 59c.**—This new stylish material is a novelty weave and we make it a leader for our opening and anniversary sale at about one-fourth what it should sell for. It is a lustrous black, large and small figures, and cord effect; brilliant Mohair finish; strictly all wool; 42 inches wide and cannot be matched elsewhere under \$2. Priced at per yard as a leader..... **59c**

**48-inch Black Mistral and Crepe Egypta.**—two of the most popular weaves of the season for the soft clinging gowns for street or evening wear. The Mistral is coarse and open; the Egypta is light weight in Crepe effect. Both materials will tuck prettily and drape nicely. They are made of pure Mohair wool yarn and good values at \$1.00. Opening sale price..... **75c**

**50 inch Black Natta Cloth.**—the very latest weave for tailored skirts and jackets. It is of coarse effect similar to Basketweave with short nap; in a lustrous black; Mohair finish and is of a weight which requires no lining and is made of double twisted Mohair wool yarn; 50 inches wide. Opening sale price per yard..... **\$1.25**

**Opening Sale Leather Goods.**  
Leather and Silk Belts—A large assortment in popular styles; straight and dip front; tabs in Florida and position styles; regular 50c values at each..... **25c**

**Ladies' Combination Pocketbooks.**—assorted skins; nickel frames, leather lined; well made; special finish; regular 70c values at each..... **50c**

**Ladies' Shopping Bags.**—real leather; oxidized clasp; outside pocket; well made and of extra size. Regular 90c values at each..... **29c**

**Opening Sale Handkerchiefs.**  
Ladies' Pure Linen Handkerchiefs—neatly hemstitched; good quality; well finished; grass bleached; regular 15c values, each..... **10c**

**Swiss Handkerchiefs.**—scallop-edged; good quality; pretty patterns; dainty styles; regular 25c value at each..... **15c**

**Swiss Handkerchiefs.**—extra fine scallop-edged; sheer quality; very choice patterns in handsome styles; regular 30c values at each..... **19c**

**Opening Sale of Costumes, Suits, Skirts and Waists.**  
This is the great opening week at the great Hamburger store, for absolutely the largest and best assortment of women's garments ever shown this side of New York; some of them are imported, designed and made by the most famous modistes of Paris, London and Berlin. Also the best and most stylish garments by exclusive tailors of New York; are all grouped for your approval. Prices as high as you want to go, and prices as low as you want to go; but whatever you buy, you may be assured that you cannot match them at our price elsewhere in Los Angeles.

For today we speak chiefly of walking suits, skirts and waists.

**All Wool Walking Suits.**—good quality Melton cloth; jacket made double breasted style, slit seams; skirt made to match. Colors are gray and blue mixtures; price..... **\$12.50**

**All Wool Walking Suits.**—Cheviots and Melton cloth; jackets handsomely satin lined, have blouse fronts; colors are gray, tan and blue; price..... **\$15.00**

**All Wool Walking Suits.**—A number of new and most popular materials including snowflake effects which are so decidedly stylish; all of them are elegantly made and finely tailored. Price..... **\$20.00**

**Flannel Waists.**—all the new colors; trimmed with white braid; very latest styles; Opening Sale price, each..... **\$1.98**

**All Wool Walking Suits.**—A superb line of invisible checks in light gray, oxford gray and brown. The jackets are Norfolk style and are neatly silk lined, seams strap finished; price per suit..... **\$25.00**

**New Fall Waists.**—the material a white Cheviot made with pleated front; an excellent weight and good wearing quality; price..... **\$1.50**

**White Cheviot Waists.**—In fancy or basket weaves, finished with large pearl buttons; most popular styles of the season; sale price..... **\$2.98**

**Finer Fall Waists.**—including cotton chevrons, French flannels and Prunella cloth; the flannels are in fancy stripes. This is a large and complete assortment; some made plain, others trimmed. Prices range \$3.50, \$5.00, \$6.50 and..... **\$7.50**

**Opening Sale Men's Furnishings.**  
**Workingmen's Gloves.**—An extra well made, good looking glove in sizes 8 to 16. Equal to 75c values elsewhere. Priced here at per pair..... **50c**
